PATTON VALLEY is a LIVE certified  
sustainable vineyard & winery

Rosé: just saying it makes one's mind turn to warm breezes, blue waters, fresh and bright foods, and good friends. Its great for the little things, the big things, and all of the in-between things, and it is here.

The Patton Valley Vineyard is a unique and delightful slice of grape growing heaven, right on top of a little outcropping in the foothills of the Coast Range at an elevation of 300-500 ft. Our vineyard has ample sun, cool breezes, and slopes to every aspect with a single soil type called Laurelwood. It's basically paradise.

We farm organically under LIVE guidelines which allows the ecosystem to thrive without being choked out by synthetic chemicals. Without these, farming here takes a lot of work. It is a hands-on approach that keeps us very busy but our vines very happy.

In the winery, by contrast, we are hands-off, doing as little as possible to interfere with nature's course. This approach gives our site, our fruit, and our wines the loudest voice in the room, rather than being drowned out by the processes by which they were made.

2016 was warm, even, and stress-free in the vineyard, with fruit reaching optimal rosé ripeness predictably, deliciously, and without fuss. We had balanced temperatures through harvest which helped things along in the cellar at a smooth clip, and we were even able to bend a tentative smile during the whole thing.

The wine leaps aromatically with grapefruit, tangerine, strawberry, cherry, and confection. In the glass, you'll get orange pith, strawberry, and melon, with a nice broadness across the palate and characteristic acidity. The wine is balanced, fresh, and dry.
